

# HOW TO CHANGE YOUR SCHOOL

## EVERY1 SPEAKS Top Tips

- Start every discussion with a great question or inspiring idea (check out [www.every1speaks.tv](http://www.every1speaks.tv) for great examples of this).
- Remember there is no such thing as a bad idea. Let your voice be heard!
- Keep on refining and improving ideas, the more you do this the better the ideas will become.
- Use the **ICE COOL** method: Identify, Capture, Energise, Collaborate, Observe, Oh Yeah and Listen.
- **And have fun!** The best ideas come when you're relaxed and focused.
